

Mock Test Structure Guide

Class 1–12 · Question Types · Timings · General Instructions

Class 1 · 2 · 3			Fun & Visual
Total Questions 12	Total Time 20 minutes	Difficulty Split Easy 70% · Medium 20% · Hard 10%	Avg Time / Q ~1 min
Question Types	Image MCQ · Picture click · Match following · Counting · Color/Shape recognition · True/False		
Subjects	Maths (counting, shapes) · English (alphabet, picture vocab) · EVS (animal/plant) · Hindi (swar/vyanjan)		
UX & Engagement	Large colorful buttons · Animations · Stars & rewards · Mascot character · Friendly tone		

Class 4 · 5			Interactive Basics
Total Questions 15	Total Time 20 minutes	Difficulty Split Easy 70% · Medium 20% · Hard 10%	Avg Time / Q ~1.2 min
Question Types	MCQ · Fill in blanks · Match following · Drag-drop · True/False · Word problems · Simple comprehension		
Subjects	Maths (MCQ + word problems) · English (grammar + passage) · EVS (diagram + MCQ) · Hindi (grammar + fill blank)		
UX & Engagement	Streaks · Badges · Timer · Coins / XP · Cartoon feedback		

Class 6 · 7 · 8			Foundation / Concept Building
Total Questions 25	Total Time 40 minutes	Difficulty Split Easy 50% · Medium 35% · Hard 15%	Avg Time / Q MCQ ~45s A-R ~75s Case 2–3 min
Question Types	MCQ · Assertion-Reason · Fill in blanks · Diagram MCQ · Case-study MCQ · Sequence ordering · One-word answer · Table-based Q		
Subjects	Maths (numerical + logic) · Science (assertion + diagrams) · SST (timeline + match) · English (passage + grammar) · CS (output prediction)		
UX & Engagement	Leaderboard · Streaks · Chapter mastery badges		

Class 9 · 10			Board Level
Total Questions 25	Total Time 40 minutes	Difficulty Split Easy 30% · Medium 50% · Hard 20%	Avg Time / Q MCQ ~45s Numerical 1–2 min Case 2–4 min
Question Types	CBSE-style MCQ · Assertion-Reason · Case-based MCQ · HOTS · Numerical solving · Graph interpretation · Data interpretation · Code output Q		
Subjects	Maths (step MCQ, graph, theorem) · Science (diagram labeling, experiment MCQ) · SST (source-based, map, chronology) · English (unseen passage, grammar, rearrangement) · CS (code output)		
UX & Engagement	Percentile rank · Weak topic analysis · Time management stats		

Class 11 · 12			Advanced / Competitive
Total Questions 30	Total Time 50 minutes	Difficulty Split Easy 30% · Medium 50% · Hard 20%	Avg Time / Q MCQ ~45s Numerical 2 min Case 3–4 min
Question Types	Multi-select MCQ · Integer type answer · Matrix match · Case-study analysis · Passage-linked numerical · Code debugging · Algorithm tracing · Graph/data analysis · Higher-order reasoning		
Subjects	PCM: Physics (numerical + graph) · Chemistry (reaction logic) · Maths (multi-step) · CS (code tracing/debug) · Bio (diagram, assertion) · Commerce (case study, accounts) · Humanities (source interpretation, chronology)		
UX & Engagement	Percentile · AI weak-topic recommendations · Adaptive difficulty · Time management stats		

Quick Reference — All Tiers

Class Group	Total Questions	Total Time	Difficulty Split	Main Focus
1 · 2 · 3	12	20 min	70 / 20 / 10	Fun & Visual
4 · 5	15	20 min	70 / 20 / 10	Interactive Basics
6 · 7 · 8	25	40 min	50 / 35 / 15	Concept Building
9 · 10	25	40 min	30 / 50 / 20	Board Level
11 · 12	30	50 min	30 / 50 / 20	Advanced / Competitive

Standard General Instructions		Show before every test
1.	Read all questions carefully before answering.	
2.	Each question carries equal marks unless specified.	
3.	There is no negative marking.	
4.	Use paper and pen/pencil for rough work, especially for Maths and Science questions.	

5.	Do not refresh or close the browser during the test.
6.	Manage your time wisely — keep an eye on the timer.
7.	Attempt all questions before submitting.
8.	Click "Submit Test" after completing all questions.
9.	Ensure stable internet connection during the test.
10.	The timer will automatically submit the test once time is over.

Subject-Specific Additions

Maths / Science	Keep rough sheets ready before starting. Show step-by-step work for numericals.
CS / Coding	Carefully read code snippets before selecting the answer. Trace execution mentally.
Class 1–5 (friendly tone)	"Try your best! Read carefully and have fun learning."

Pre-Test Info Screen			Show before timer starts
Questions Count	Time Duration	Difficulty Level	Topics Chapter names
Example	Questions: 25 · Time: 40 min · Difficulty: Medium · Topics: Algebra, Trigonometry, Coordinate Geometry		

Time per Question Type			For dynamic test duration calculation
Question Type	Avg Time	Question Type	Avg Time
Simple MCQ	30–45 sec	Assertion–Reason	60–90 sec
Numerical	60–120 sec	Case Study	120–240 sec
Diagram Q	~60 sec	Fill in blank	~30 sec
Match following	~45 sec	Code output	60–90 sec

Tip: Backend can auto-calculate total test duration by summing (question_count x avg_time_per_type) across all question types used in the test.
